Senior Wellness Questionnaire

Pet's Name: _____ **Owner's Name:** _____

Breed: _____ **Age:** _____ **Weight:** _____

		YES	NO
Age	Is your dog under 50 lbs and over 7 years old? Is your dog between 51 and 90 lbs and over 6 years old? Is your cat over 10 years old?		
Mobility	Have there been any changes? For example, are they slower to rise, needing to walk out some stiffness, playing less, jumping less etc? Are they dragging their toes?		
Hair Coat	Has there been a change in quality? More dandruff? More matting? Less grooming?		
Weight	Has their weight increased or decreased?		
Vision	Are you needing to turn on the outdoor lights at night? Are they barking at you until you speak? Are they bumping into things?		
Hearing	Are they startled more readily? Are they not coming when called? Do they seem to have selective hearing?		
Appetite	Has their appetite changed? Are they eating less? Are they more particular?		
Eating	Are they dropping kibble? Are they looking for smaller kibble? Do they flinch or turn their head when you try to pet them. Do they drop their favourite toy?		
Drinking	Has their been a change (increased, or decreased)?		
Urination	Are they urinating more? Are they having accidents? Do they need to go outside more often?		
Digestion	Have they been vomiting? Do they have intermittent diarrhoea? Are they having a hard time passing stool? Are they coughing up hairballs?		
Lumps & bumps	Are there any new growths on their body?		
Behaviour	Has there been a personality change? Are they more passive, or more aggressive? Are they avoiding activities and people that they used to enjoy?		
Odour	Is there an odour coming from your pet? From the ears? The mouth? Anywhere else?		

If you answered yes to one or more of the questions above, your pet may have age associated health issues that need to be addressed. Schedule an appointment with your veterinarian as soon as possible.
